RE-REGISTRATION/REGISTRATION FOR 2012-2013 SCHOOL YEAR AT DODEA PACIFIC GUAM SCHOOLS

Registration/Re-Registration for the 2012-2013 school year is under way throughout DoDEA Pacific Guam schools. School re-registration for every child throughout the Pacific is an annual requirement by the Department of Defense to determine continued eligibility for school enrollment. Accurate and complete school enrollments assist principals, district superintendents, and Pacific area officials in allocating resources to support highest student achievement. This process is critical for schools since funding and staffing authorizations are based on enrollment and enrollment projections. Parents are urged to complete their children's re-registration between April 9 – 20th.

School principals and school office staffs across the Pacific are working diligently to ensure that the annual re-registration process is efficient and customer-service oriented. Some paperwork can be prepared in advance, but all parents will need to visit their children's schools to finalize the registration process.

Parents can either call the school for detailed instructions regarding documentation required for registration/re-registration or visit <http://www.guam.pac.dodea.edu/>. DoDEA Pacific Guam schools will open for instruction on August 27th.

Our staff is very much interested in assisting both students and parents through the re-registration process. Should a family member have any questions or need additional assistance, please do not hesitate to contact any DoDEA Pacific Guam schools.

For more information and assistance with the registration process, parents should contact their local school office.
